

CAMILO ROJAS

JUNIOR UX/UI & PRODUCT DESIGNER | UX RESEARCH

hola@camilorojas.design | +57 310 463 7585 | [LinkedIn](#) | [Portfolio](#) | Colombia | Remote LATAM

PROFESSIONAL SUMMARY

Junior UX/UI and product designer with a background in visual communication and a focus on applied research. I translate user evidence and product requirements into clear flows, testable prototypes, and consistent interfaces. Experience in usability testing, research synthesis, fintech products, decision flows, and responsive systems, with rigorous documentation for product teams.

CORE SKILLS

UX/UI Design | Product Design | UX Research | User Interviews | Surveys | Usability Testing | Research Synthesis | Insight Prioritization | Heuristic Evaluation | Journey Mapping | Information Architecture | User Flows | Interaction Design | Wireframing | Interactive Prototyping | Design Systems | Accessibility | Product Documentation | Figma | FigJam | Maze

SELECTED UX PROJECTS

ForumGo | UX Research and Voting Flow Redesign | TripleTen LATAM | 2026

- Defined success criteria for effectiveness, efficiency, and satisfaction; ran an unmoderated Maze test and analyzed heatmaps, post-task responses, and a journey map.
- Translated comparison, feedback, and confirmation friction into design priorities and a responsive prototype with explicit states, review, and reinforced confirmation.

YouTube | Content Discovery Research | 2025

- Interviewed 9 people and complemented the evidence with surveys and usability tests to analyze search, advertising, relevance signals, and abandonment.
- Found 60% use driven by need versus 40% by habit; synthesized insights on control, noise, and trust in recommendations, defining opportunities and tracking metrics.

PagoConectado | Product Design for Offline Payments | TripleTen LATAM | 2026

- Mapped the online/offline journey and local record, validation, pending, and synchronization states; translated them into requirements, microcopy, and explicit cues.
- Designed a mobile-first prototype with bilateral confirmation (handshake), shared evidence, and duplicate-recovery flows to strengthen traceability, perceived control, and safety.

Subtrack | Information Architecture and Responsive UI System | TripleTen LATAM | 2026

- Designed a list-detail experience and a responsive system with tokens, reusable components, and semantic states to improve hierarchy, consistency, and control.

PROFESSIONAL EXPERIENCE

GRAPHIC™ | Multimedia Designer | Bogotá, Colombia | Feb 2020 - Nov 2025

- Translated ambiguous requirements into structured visual solutions for multiple brands, maintaining consistency through visual systems, hierarchy, and documentation.
- Managed priorities, versions, and feedback cycles across parallel projects, strengthening traceability, quality, and iterative refinement.

AUVIMU S.A.S. | Multimedia Designer | Bogotá, Colombia | Jun 2018 - Feb 2020

- Coordinated deliverable reviews and adapted solutions across formats, teams, and operational constraints, improving organization and process consistency.

JOYERÍA GIOIELLI & Co. | Graphic Designer | Bogotá, Colombia | Jun 2016 - Dec 2019

- Redesigned the identity and digital presence; defined a visual system to communicate high-value products with greater clarity and consistency.

EDUCATION

UX/UI Design Certificate | TripleTen LATAM | Nov 2025 - Jun 2026 | Issued Jul 2026

Innovative Digital Product Design | Universidad de los Andes | Feb 2026 - Mar 2026

Professional Training in Graphic Design | Universidad Jorge Tadeo Lozano | Aug 2011 - Nov 2016

LANGUAGES

Spanish: Native | English: Conversational working proficiency
